SUKHOTHAI

Welcome

Welcome to Sukhothai Event Catering Services! Those of you who recognise the Sukhothai name will already know it's synonymous with critically acclaimed authentic Thai food.

Those that are new to Sukhothai are in for a culinary adventure.

About Us

Sukhothai, which literally translates as 'the dawn of happiness', opened its restaurant doors in Chapel Allerton, Leeds, in 2002.

Its aim simply to bring high quality authentic Thai food, served in exquisite surroundings, at an affordable price.

This has not altered since first opening and is emphatically embraced at our second restaurant site in Headingley, Leeds.

Restaurant owner and head chef, Ban Kaewkraikhot, has over 20 years of experience in the business. Ban successfully ran a busy award winning restaurant in Bangkok for years before deciding to replicate her award winning dishes to the UK.

Since our opening in 2002, we have received many plaudits and accolades, both locally and nationally, culminating in being one of just a few Thai restaurants that has made the Good Food Guide and being hailed by The Times as one of the best 10 Thai restaurants in the UK. We were also recent winners of "The Best Restaurant Award" hosted by the Leeds restaurant Association.

Our Philosophy

We were founded on a vision to create a unique experience for our customers - one that exceeds the usual expectations of Thai cuisine and Thai hospitality. In all that we do we never forget that we are custodians of a unique heritage and representatives of the nation of Thailand.

We recognise that customers today have high expectations. They require service and food that meets their individual needs precisely. We are ideally placed to deliver this. Our independence and compact scale means that we can experiment freely with new products and ideas. We mould our business around the needs of our customers rather than force them to accept compromise. These are the differences that separate us from the rest.

Our Food

Those that have been to one of the Leeds restaurants will know that we pride ourselves on the quality of our menu and the ingredients used in all of our dishes. Ban is always working on new ideas and concepts as well to compliment her existing range of over 200 traditional Thai dishes.

The Thai meal is a harmony of different tastes; combining the key tastes of spicy, sweet, sour and salt, used in contrasting ways to create an amazing variety of tastes. All ingredients are of only the finest quality and sourced locally wherever possible.

Thai food is a very healthy option. Most dishes are 'flash fried' in a wok, over intense heat, for just a few seconds, so the goodness of the ingredients are 'locked-in' and the amount of saturated fat absorbed kept to an absolute minimum.

Our Staff

All our staff are trained personally by Ban and have a wealth of experience in cooking and serving in some of the world's most exclusive restaurants and hotels.

By combining the expertise of these master chefs with beautiful and attentive waiting-on staff, we can offer a true taste of Thailand through genuine Thai cuisine and hospitality.
